

Please don't let unwanted calls invade our home again! Nine times out of ten they come in between 7 and 9 PM. In homes where people have to go to bed early to be at work by 5 or 6AM this is a problem. We don't need to be woke up by someone trying to sell us something we don't want. Don't come to me, I'll come to you if I want to buy something is our motto. Also elderly people in the household go to sleep early. These calls disturb everyone. Please keep things as they are. It is heavenly not receiving these calls anymore. Please lets keep it that way.
